Transcriber's Office

March 12, 1998      LB 1362

had one tort claim, American Fire and Casualty, in the amount of \$22,000, for an individual that was killed on the highway. The...that claim was rather small, \$22,000. In addition, we have the state agency write-offs which we have a breakdown on all of the different agencies and why they...the different reasons for the write-offs. And I'll be happy to answer any questions of the membership in regard to these write-offs. The issues that were raised by Senator Dierks involving Game and Parks, we have a breakdown on the different uncollected checks that the Game and Parks is writing off. I think their total amount of write-off for the claims for State Game and Parks was \$1,817.79. We have the names of the individuals that wrote the bad checks, and that's what Game and Parks is doing with their write-offs. The Health and Human Services has a rather extensive write-off list, and again it's for the...most of it for the bad debts. And we also have Accountability and Disclosure, which was also raised by Senator Dierks, involving individuals that failed to pay on debts. There were two individuals that failed to pay, and weren't able to be collected by Accountability and Disclosure. So all of these agencies are requesting the ability to write it off for their accounting...to make their accounting right on their agencies, and make it right with our Legislative Fiscal Office. And I'll be happy to answer any questions in regard to the bill itself.
